

# Australian Capital Territory Implementation Plan

## NATIONAL PARTNERSHIP AGREEMENT ON NATURAL DISASTER RESILIENCE

### PART 1: PRELIMINARIES

1. This Implementation Plan is a schedule to the National Partnership Agreement on Natural Disaster Resilience and should be read in conjunction with that Agreement. The objective in the National Partnership is to have Australian communities that are resilient to natural disasters.
2. This Implementation Plan will address the Australian Capital Territory's risk priorities as described in the Territory Wide Risk Assessment (2014 and 2017) by building on existing knowledge and programs. Dedicated projects will support the management of the risks. Sound risk management is of key importance in increasing the effectiveness of natural disaster resilience.

### PART 2: TERMS OF THIS IMPLEMENTATION PLAN

3. This Implementation Plan will commence as soon as it is agreed between the Commonwealth of Australia, represented by the minister responsible for emergency management, and the Australian Capital Territory, represented by the Minister for Police and Emergency Services.
4. As a schedule to the National Partnership Agreement on Natural Disaster Resilience, the purpose of this Implementation Plan is to provide the public with an indication of how the Australian Capital Territory Natural Disaster Resilience Program is intended to be delivered and demonstrate the Australian Capital Territory's capacity to achieve the outcomes of the National Partnership.
5. This Implementation Plan may be varied by written agreement between the Commonwealth and State Ministers responsible for it under the overarching National Partnership.
6. The Parties to this Implementation Plan do not intend any of the provisions to be legally enforceable. However, that does not lessen the Parties' commitment to the plan and its full implementation.

### Program Logic

11. The project elements detailed in this Implementation Plan will achieve the outcomes and objectives of the National Partnership by:
- (a) Increasing disaster resilience by enhancing emergency management capability that addresses priorities identified in the Territory wide risk assessment through the Natural Disaster Resilience Capability Program; and
  - (b) increasing disaster resilience by supporting emergency management volunteers through activities addressing the key issues of attraction, training, support and retention through the Natural Disaster Resilience Community Grants Program.

### Risk Management

12. A risk management plan for the NDRP Grant Administration is in place. Risks have been actively identified, entered into a risk log and categorised in terms of impact and likelihood.

### Relevant Australian Capital Territory Context

13. In developing this Implementation Plan consideration has been given to relevant ACT context, in particular the risk priorities identified in the Territory Wide Risk Assessment (2014 and 2017); previous NDRP projects; key hazard plans, in particular bushfire, extreme heat and storm).
14. The ACT has also considered the National Strategy for Disaster Resilience (NSDR), National Disability Strategy 2010-2020; National Emergency Management Volunteer Action Plan – 2012; and the National Indigenous Reform Agreement.
15. The ACT is proposing to use collaborative capability and competitive grants programs that allow for the tailoring of projects to meet ACT priorities while promoting innovation. These programs will be conducted in accordance with probity, accounting and project management requirements of the Justice and Community Safety Directorate to ensure

projects that best meet the criteria are funded. Projects will be assessed by a panel of experts.

16. Projects undertaken through this Implementation Plan will promote and maximise coordination of, and cooperation between, organisations and applicants seeking similar outcomes and encourage involvement with the private sector.
17. The full benefit of projects may be beyond the timeframe of the current National Partnership.
