**Commonwealth/State and Territory Joint Group Training Program (JGTP)
Administrative Guidelines.
Effective from 1 July 2011
Updated 16 November 2011**

1. Administrative Arrangements

The JGTP Administrative Guidelines are to be applied in conjunction with the National Funding Principles for the administration of the Program. Australian Government contributions to the Program are subject to the Australian Government Minister's decisions on the Program and budget limitations. The JGTP Administrative Guidelines form part of the Project Agreement as Schedule A.

- 1.1 If the Project Agreement is inconsistent with these Guidelines, the terms and conditions of the Project Agreement will take priority over these Guidelines, to the extent of the inconsistency.

2. Project Agreements

Project Agreements are subject to the *Intergovernmental Agreement on Federal Financial Relations* which commenced on 1 January 2009 and provides the overarching framework for COAG to pursue economic and social reforms to underpin growth, prosperity and social cohesion into the future. The new framework simplifies payments to the States and Territories, aids transparency and improves State and Territory governments' budget processes.

3. Australian Government Contributions

- 3.1 The Australian Government recognises the States and Territories' commitment to JGTP and the 2010-11 Australian Government funding contribution defines the Australian Government's budget capacity. Funding for 2011-12 will be provided at this level with the offer of an additional 1.7%, being indexation, based on Wage Cost Index 1(WCI 1).
- 3.2 Subject to Ministerial decisions and available funding, JGTP Australian Government funding may be provided, at the previous year's funding allocation with indexation based on WCI 1 at that time.
- 3.3 The Australian Government and the States and Territories will contribute equally to JGTP confirming their joint commitment to the Program. States and Territories have the option to accept the additional indexation (WCI 1) funding offered by the Australian Government and to increase their contribution by the corresponding amount.
- 3.4 The Australian Government will provide funding for a period of one year. Extension of the JGTP may be supported in subsequent years with updated Funding Plans and new Project Agreements.
- 3.5 The annual funding allocation will be paid in one payment on execution of the Project Agreement to each participating State or Territory on receipt and acceptance of correctly rendered Tax Invoices.

4. Fully Contestable Funding

4.1 States and Territories must ensure that the Joint Group Training Program funding is fully contestable and all Group Training Organisations, registered against the National Standards for Group Training Organisations (GTOs), ie GTOs that are for profit or not-for-profit are eligible to apply for funding under this Program.

5. Use of JGTP Funding by States and Territories

The primary objective of JGTP is to provide funding to GTOs for strategies and initiatives which encourage and improve commencements and completions in Australian Apprenticeships. Funds must only be expended, including the State contribution, in accordance with the Project Agreement.

5.1 Funding of Group Training Australia -State Associations.

JGTP funding is not to be used to fund Group Training Australia Limited or its State Associations directly but may be used to fund projects conducted by them or for specific activities provided by them which support the objectives of JGTP and the National Funding Principles:

- (i) Principle 1: Organisations that meet the National Standards for Group Training Organisations are eligible to apply to the State Training Authority for Joint Group Training Funding.
- (ii) Principle 2: Targeted outcomes will be determined by each State or Territory for each of the following nationally agreed priority areas: - Skills Development, Client Groups and Geographical Locations.
- (iii) Principle 3: Australian Government Funding under the Joint Group Training Program will be allocated to each State and Territory subject to submission and acceptance of each State and Territory's Funding Plan, which will form part of the Project Funding Agreement between the Australian and individual State and Territory Governments.
- (iv) Principle 4: Where funding is applied to individual Australian Apprentices under the Program, the funding will remain in place for the duration of that Australian Apprenticeship, at a level to be determined by the State Training Authority provided the Group Training Organisation continues to receive Program funding from that State or Territory.
- (v) Principle 5: Incentive outcome payments will be determined by the State Training Authority and will include different rates to reflect the level of priority of the outcomes. State and Territory priority areas where possible will align to the State or Territory VET Plan.
- (vi) Principle 6: Structuring of the funding model under the Program is determined by the State Training Authority in a way that supports skills and training for identified priority areas and encourages the completion of an Australian Apprenticeship.
- (vii) Principle 7: The Australian Government and the State and Territory Governments will contribute equally to the Program and the Australian Government contribution will be maintained within the agreed budget capacity of the Australian Government.

5.2 Optional use of Australian Government Funding

In addition to the payment of incentives to GTOs to achieve Australian Apprenticeship outcomes, States and Territories may utilise up to 20% of the allocated Australian Government funding to fund innovative/strategic projects which support the objectives of JGTP. This funding is not to be used for straight research projects.

6. State/Territory Funding Plan

Each participating State and Territory is to provide the Department of Industry, Innovation Science, Research and Tertiary Education (DIISRTE) with a Funding Plan which will be incorporated into the Project Agreement as Schedule B.

6.1 The Funding Plan is to include:

- a brief overview of how JGTP funds will be utilised
- target Australian Apprenticeship commencements and completions through Group Training
- the targeted outcomes for each of the priority areas and any additional target areas or priority groups as determined by the State or Territory (Principle 2)
- the proposed incentive payments and schedule to each of these target groups (Principle 5 &6)
- proposed innovative projects – if known, and
- strategies to ensure continued investment in Australian Apprenticeships in the current economic downturn, through Group Training.

6.2 For changes made to State and Territory Funding Plans over the life of the Project Agreement that are supportive of the objectives of JGTP and the National Funding Principles, States and Territories are not required to seek the prior approval of DIISRTE. However, as the Funding Plan forms part of the Project Agreement, DIISRTE requires that States and Territories notify them in writing of any changes that are made to the Funding Plan.

7. Reporting

7.1 As outlined in the Project Agreement, the Funding Performance Report will be provided to DIISRTE by 15 November 2012.

7.2 The Funding Performance Report must be signed off by the Chief Executive Officer and the Senior Executive who has primary responsibility for managing audit functions.

7.3 As outlined in the Project Agreement, each State and Territory will also provide a separate Final Project Report within 90 days of the completion of projects under this Agreement that will be a stand-alone document that can be used for public information dissemination purposes demonstrating outcomes for public accountability.

7.4 DIISRTE will provide templates for all reports required under the Project Agreement.

8 JGTP Outcomes

Consistent with the COAG agenda for improved productivity and participation, this Program is well positioned to contribute towards the following targets:

- double the number of higher qualification completions (diploma and advanced diploma) between 2009 and 2020, and

- halve the proportion of Australians aged 20–64 without qualification to Certificate III level and above between 2009 and 2020.

- 8.1 JGTP can achieve flexibility and responsiveness in program delivery through supporting quality training outcomes for Australian Apprentices based on the nationally agreed priority areas: Skills Development, Client Groups and Geographical Locations.
- 8.2 Program Outcomes and corresponding Progress Measures are listed at 8.3. Success in achieving the Program Outcomes is to be captured by reporting against the Progress Measures. States and Territories will continue to work with the Australian Government to redevelop Outcomes and Progress Measures that are consistent across all jurisdictions as required.

8.3 Outcomes and Progress Measures Table

	Outcome	Progress Measure
I	Group Training Organisations are supported to meet changing labour market demands as determined at the State and Territory level.	In the current economic climate Australian Apprenticeship commencements and completions are maintained at the previous year's level for individual States and Territories.

States and Territories collect data on the number Australian Apprentices who have completed Pre-vocational and Pre-apprenticeship training prior to commencement of an Australian Apprenticeship. % of OOT Australian Apprentices commenced through Group Training as compared to all employers for funded period.
III	Group Training Organisations are supported to engage with industry to support the delivery of the Green Skills Agreement and the Skills for the Carbon Challenge Initiative and knowledge through Australian Apprenticeships.
