

Implementation Plan for Central Coast Regional Cancer Service

NATIONAL PARTNERSHIP AGREEMENT ON HEALTH INFRASTRUCTURE

PRELIMINARIES

1. This Implementation Plan is created subject to the provisions of the National Partnership Agreement on Health Infrastructure and should be read in conjunction with that Agreement. The objective in the National Partnership Agreement on Health Infrastructure is to improve the health and wellbeing of Australians through the provision of high quality physical and technological health infrastructure.
2. The funding for this project has been allocated from the Health and Hospitals Fund (HHF) under the Regional Cancer Centres (RCC) initiative. The RCC initiative aims to improve access to essential cancer services for as many people as possible living in rural, regional and remote areas, to help close the gap in cancer outcomes between the city and the country. The broader objectives of the HHF, whilst not replacing State and Territory effort, are to:
 - invest in major health infrastructure programs that will make significant progress towards achieving the Commonwealth's health reform targets; and
 - make strategic investments in the health system that will underpin major improvements in efficiency, access or outcomes of health care.
3. The purpose of this project is to establish a Regional Cancer Centre at Gosford through the establishment of radiation therapy and expansion of chemotherapy at Gosford Hospital and the refurbishment of the multidisciplinary clinic and day oncology unit at Wyong Hospital; as described in the Health and Hospitals Fund Regional Cancer Centres application dated 24 December 2009 and additional advice provided on 25 February 2010.

TERMS OF THIS IMPLEMENTATION PLAN

4. This Implementation Plan will commence as soon as it is agreed between the Commonwealth of Australia, represented by the Minister for Health and Ageing, and the State of New South Wales, represented by the Minister for Health.
5. This Implementation Plan will cease on completion of the project as specified in this Implementation Plan, including the acceptance of final performance reporting and processing of final payments against performance milestones specified in this Implementation Plan.
6. This Implementation Plan may be varied by written agreement between the Ministers.
7. Either Party may terminate this agreement by providing 30 days notice in writing. Where this Implementation Plan is terminated, the Commonwealth's liability to make payments to New

South Wales is limited to payments associated with performance milestones achieved by New South Wales by the date of effect of termination of this Implementation Plan.

8. The Parties to this Implementation Plan do not intend any of the provisions to be legally enforceable. However, that does not lessen the Parties' commitment to this Implementation Plan.

PROJECT OBJECTIVE

9. The objective in this Implementation Plan is to provide a comprehensive radiation therapy and associated cancer service facility at Gosford Hospital.

PROJECT OUTPUTS

10. The project will include:
 - three radiotherapy bunkers;
 - two linear accelerators;
 - radiotherapy planning and support areas;
 - expansion of chemotherapy treatment places from 10 to 15;
 - patient consult areas;
 - waiting and reception space;
 - multidisciplinary consulting rooms; and
 - cancer patient information and support services for patients, carers and clinicians.

In addition, cancer services will be enhanced at Wyong Hospital with the development of a satellite multidisciplinary clinic and day oncology unit. This development will provide:

- refurbishment of existing space to accommodate multidisciplinary consulting accommodation;
- waiting and reception functions; and
- cancer patient information and support services for patients, carers and clinicians.

17. Having regard to the estimated costs of projects specified in the overall project budget, New South Wales will not be required to pay a refund to the Commonwealth if the actual cost of the project is less than the agreed estimated cost of the project. Similarly, New South Wales bears all risk should the costs of a project exceed the estimated costs. The Parties acknowledge that this arrangement provides the maximum incentive for New South Wales to deliver projects cost-effectively and efficiently.

18. New South Wales will provide project reports to the Commonwealth to demonstrate its achievement of performance milestones set out in Table 1.
19. Each project report will contain comprehensive information on the following:
