Project Agreement for the OzFoodNet Program

INTERGOVERNMENTAL AGREEMENT ON FEDERAL FINANCIAL RELATIONS

PRELIMINARIES

1. This Project Agreement (the Agreement) is created subject to the provisions of the [Intergovernmental Agreement on Federal Financial Relations](#) and should be read in conjunction with that Agreement and its Schedules, which provide information in relation to performance reporting and payment arrangements under the Intergovernmental Agreement on Federal Financial Relations.
2. This Agreement will support the delivery of OzFoodNet: a national system of enhanced foodborne disease surveillance that provides comprehensive information on foodborne disease and the capacity to rapidly identify and respond to outbreaks of foodborne disease. It enables continuation of specific work that the States commenced from 1 July 2008 under the former OzFoodNet Funding Agreements and more general work undertaken since the inception of the OzFoodNet program circa 2000.
3. Information sharing and response to foodborne disease under the terms of this Agreement will be undertaken in the context of the *National Health Security Act 2007 (Cth)* and relevant State and Territory public health legislation .

Shared roles

10. The Parties will meet the requirements of Schedule E, Clause 26 of the Intergovernmental Agreement on Federal Financial Relations, by ensuring that prior agreement is reached on the nature and content of any events, announcements, promotional material or publicity relating to activities under this Agreement, and that the roles of both Parties will be acknowledged and recognised appropriately.

- (a) Immediately – for an outbreak of national significance, as defined by unusual pathogen, intentional contamination, serious or unusual clinical presentation, a large number of

people affected, or potential for multi-jurisdictional or international spread of the outbreak. This notification may be to the:

- i. Coordinating Epidemiologist;
 - ii. OzFoodNet restricted e-mailing list; or
 - iii. National Focal Point under the *International Health Regulations* 2005 (IHRs).
- (b) Fortnightly – for all outbreaks occurring in the States, along with details of clusters of disease under investigation, cases of potentially emerging diseases and other information as directed by the Coordinating Epidemiologist. The fortnightly reporting period runs from Sunday through to Saturday of the following week. The States must submit the fortnightly Enteric Disease Surveillance Report electronically by midday Tuesday or other day as agreed with the Coordinating Epidemiologist immediately following each fortnightly reporting period. Data will be summarised centrally each fortnight in a national report.
- (c) Quarterly – for all gastrointestinal outbreaks occurring in the States. Summary data for each outbreak will be entered onto the OzFoodNet Outbreak Register (provided by the Commonwealth) in accordance with the 'Outbreak Summary Template' or another format as agreed with the Coordinating Epidemiologist. State Outbreak Registers will be submitted eight weeks after the close of the quarter.

PART 5 – FINANCIAL ARRANGEMENTS

17. The Commonwealth will provide a maximum financial contribution to the States of \$6,752,000 in respect of this Agreement. The maximum funding will be increased by indexation calculated annually by reference to the Wage Cost index 1. Under the Agreement, the Commonwealth will advise States of the subsequent year's funding by 30 June of each year. All payments are GST exclusive.
18. The Commonwealth's funding contribution will not be reduced where the States secure funding from other activity partners through innovative and collaborative partnerships.
19. The Commonwealth's estimated financial contribution to the operation of this Agreement, including through National Partnership payments to the States paid in accordance with *Schedule D – Payment Arrangements* of the **Intergovernmental Agreement on Federal Financial Relations**, are shown in Table 2.

Table 2: Estimated financial contributions

(a) Notes: The maximum funding will be increased by indexation calculated annually by reference to the Wage Cost Index 1.

20. Having regard to the agreed estimated costs of projects specified in a Project Agreement, a State or Territory will not be required to pay a refund to the Commonwealth if the actual cost of the project is less than the agreed estimated cost of the project. Similarly, the States bear all risk should the costs of a project exceed the agreed estimated costs. The Parties acknowledge that this arrangement provides the maximum incentive for the States to deliver projects cost effectively and efficiently.

PART 6 – GOVERNANCE ARRANGEMENTS

Enforceability of the Agreement

21. The Parties do not intend any of the provisions of this Agreement to be legally enforceable. However, that does not lessen the Parties' commitment to this Agreement.

Variation of the Agreement

22. The Agreement may be amended at any time by agreement in writing by all the Parties.
23. Bilateral schedules to this Agreement that have no impact on other Parties may be amended at any time by agreement in writing by the relevant Commonwealth and State portfolio ministers.
24. A Party to the Agreement may terminate their participation in the Agreement at any time by notifying all the other Parties in writing.

Delegations

25. The Commonwealth Minister may delegate the assessment of performance against milestones and the authorisation of related Project payments to senior Commonwealth officials, having regard to the financial and policy risks associated with those payments.

Dispute resolution

26. Any Party may give notice to other Parties of a dispute under this Agreement.
27. Officials of relevant Parties will attempt to resolve any dispute in the first instance.

28. If a dispute cannot be resolved by officials, it may be escalated to the relevant Ministers and if necessary, the relevant Standing Council.
29. If a dispute cannot be resolved by the relevant Ministers, it may be referred by a Party to COAG for consideration.

Interpretation

30. For the purposes of this Agreement:
 - (a) Agreed Purpose means use by the Commonwealth for the Commonwealth's purposes including but not limited to use within the Department of Health and Ageing for the collation, analysis and reporting of national foodborne illness surveillance information, and the publication and sharing of that information with other government agencies, industry, universities and the public.
 - (b) Foodborne disease outbreaks (eg. with regard to Project Outputs and Reporting Arrangements) means information relating to two or more cases that have been linked to a common source of food and were reported in the State or Territory during the specified reporting period. Foodborne and non-foodborne disease outbreak information from States is collated into a national dataset, the OzFoodNet Outbreak Register.
 - (c) Incidence of foodborne disease (eg. with regard to Project Outputs and Reporting Arrangements) means information relating to individual cases of foodborne disease such as: campylobacteriosis, hepatitis A, listeriosis, salmonellosis, Shiga toxin-producing *Escherichia coli* and shigellosis, that were reported in the State or Territory during the specified reporting period.
 - (d) Outbreak and surveillance databases includes the OzFoodNet Outbreak Register and NetEpi. Information from States on foodborne and other relevant enteric disease clusters and outbreaks is collated into a national dataset, the OzFoodNet Outbreak Register. The database NetEpi is used for national investigation of clusters and outbreaks.
 - (e) OzFoodNet Site is an operational adjunct to the current jurisdictional surveillance infrastructure that collects, collates, manages and coordinates the transfer of information across and within jurisdictions for the purposes of contributing to the provision of national data on the reported incidence of foodborne disease outbreaks. Epidemiologists, or other suitably qualified personnel, are employed by the States to coordinate and oversee the work of the OzFoodNet Site.
 - (f) Project means OzFoodNet: a national enhanced foodborne disease surveillance program that provides comprehensive information on foodborne disease and the capacity to rapidly identify and respond to outbreaks of foodborne disease.
 - (g) Project Material means all Material (documents, records, software, goods, images, information and data), including but not limited to that which was created and/or supplied to the Commonwealth under the current and previous funding agreements for the OzFoodNet Program (since 2000), in addition to all reports and data, which are: i) brought into existence for the purpose of the OzFoodNet Program under the Agreement; (ii) incorporated in, supplied or required to be supplied along with the Material referred to in paragraph (i); or (iii) copied or derived from the Material referred to in paragraphs (i) and (ii) above.
