| | <p>Note: Balance of non-Commonwealth contributions includes contributions from New South Wales to at least match the Commonwealth's contribution but does not include contributions from Proponents</p> |
| Additional terms | <p>Financial Contributions</p> <ol style="list-style-type: none"> 1. New South Wales (NSW) is responsible for provision of funds to Proponents and reporting on the implementation of the projects listed in Table 3. 2. The Commonwealth will contribute up to one third of the cost of each project listed in Table 3 and NSW will at least match the Commonwealth's contribution for each project. NSW will use best endeavours to ensure that each Proponent provides the funding required for each project. <p>Payments</p> <ol style="list-style-type: none"> 3. The Commonwealth will make payments subject to NSW demonstrating that relevant milestones have been met. 4. If the maximum Commonwealth payment shown in Table 2 is not made in a given financial year the Commonwealth will endeavour to move funds into a later year at its discretion. The Commonwealth makes no guarantee that unspent funding (if any) will be carried into later years. <p>Reporting</p> <ol style="list-style-type: none"> 5. NSW will report annually to demonstrate performance against indicators a – d below and that Commonwealth funding has been matched. These reports will include: <ol style="list-style-type: none"> (a) a statement of funds paid to Proponents (b) a statement of cash and in-kind contributions from Proponents (c) details of projects: <ol style="list-style-type: none"> 1 progress made in delivering the project including: |

Table 3: Projects

| Project title and description | Proponent (Industry Partners for reporting purposes) | Expected project duration | Commonwealth funding |
|--|--|---------------------------|----------------------|
| GRL Food and Garden Organics (FOGO) Transition Project The project will upgrade the existing Global Renewables Eastern Creek waste processing facility to process FOGO. The facility's compost hall will be upgraded as part of a larger project to allow FOGO to be processed separately to municipal solid waste (MSW) streams. The new FOGO process will 'plug-into' the existing MSW plant to minimise interruption and maximise existing capital. The project will install FOGO consolidation, sorting and processing equipment. The project will increase waste processing capacity by 40,000 tonnes per annum and create 2 jobs during construction and 1.5 ongoing jobs following commissioning. | Global Renewables Eastern Creek Pty Ltd | TBC | \$1,000,000 |

| | | | |
|--|-----------------------|-----|-----------|
| <p>Ravensworth Facility Composting Equipment</p> <p>The project will double the organic processing capacity at the Ravensworth Compost Facility. The upgrade will allow the facility to accept FOGO and will reduce the composting footprint by up to 70%.</p> <p>The project will install a new trommel screen and mixing/deep stacking unit.</p> <p>The project will increase waste processing capacity by 29,000 tonnes per annum and create 0 jobs during construction and 4 ongoing jobs following commissioning.</p> | Loop Organics Pty Ltd | TBC | \$200,387 |
| <p>Development of a Organic High-grade Compost Facility</p> <p>The project will upgrade the Polpure compost facility to enable processing of green waste and FOGO. Produced high-grade organic fertiliser products, along with existing worm casting products, will be suitable for domestic markets.</p> <p>The project will install two shredders, a windrow turner, a second composter and weighbridge and build the collection facility (an enclosed shed).</p> <p>The project will increase waste processing capacity by 9,280 tonnes per annum and create 1 job during construction and 2 ongoing jobs following commissioning.</p> | Polpure Pty Ltd | TBC | \$245,000 |
| <p>Organics Recovery - For Circular Economy</p> <p>The project will increase processing capacity for anticipated additional FOGO at Worm Tech's Carrathool facility.</p> <p>The project will install composting equipment (wind sifter and trommel screen), infrastructure (construction of windrow pads and shed) and purchase a truck to meet site transport requirements.</p> <p>The project will increase waste processing capacity by 30,000 tonnes per annum and create 1 job during construction and 0 ongoing jobs following commissioning.</p> | Worm Tech Pty Ltd | TBC | \$286,617 |

| | | | |
|---|------------------------------|-----|-----------|
| <p>Australian Native Landscapes - New composting facility at Buttonderry</p> <p>The project will establish a new organic recycling facility at Wyong NSW to provide FOGO processing capacity to meet the future needs of the Central Coast region. The project will use a range of technologies to process organics to form finished products certified and compliant to AS4454.</p> <p>The project will build a new enclosed processing and composting facility to enable stabilisation of organics, and capability to blend and mix organics to form finished products.</p> <p>The project will increase waste processing capacity by 60,000 tonnes per annum and create 2 jobs during construction and 1 ongoing job following commissioning.</p> | Australian Native Landscapes | TBC | \$957,500 |
