Strategic Indigenous Tourism Projects

FEDERATION FUNDING AGREEMENT – AFFORDABLE HOUSING, COMMUNITY SERVICES AND OTHER

Statement of Strategic Intent

This statement takes into account the priority reforms, socio-economic targets and outcomes set out in the [National Agreement on Closing the Gap](#):

Strategic Indigenous Tourism Projects funding will stimulate and strengthen the economic participation of Aboriginal and Torres Strait Islander people and communities in the Visitor Economy (the Australian tourism industry).

Strategic co-investments will be delivered in partnership with State and Territory governments targeting projects which increase the supply of Indigenous tourism experiences and/or create supply chain opportunities for Indigenous tourism businesses and organisations, and which will deliver long-term economic benefits to the Indigenous tourism sector in each state and territory.

The selection of projects (for co-investment) will be directly informed by the Indigenous tourism sector (i.e. Aboriginal and Torres Strait Islander people) with governments taking a place-based approach that recognises each jurisdiction's unique Indigenous tourism opportunities and investment needs.

Ministerial approval is required for co-investment of selected projects.

Investment Principles

The purpose of the *Strategic Indigenous Tourism Projects* funding is to stimulate investment in strategic projects that contribute to building a tourism ecosystem, and that will deliver long-term benefits to the Indigenous tourism sector in each State and Territory. Eligible projects will be identified in line with the following investment principles:

1	States and Territories must work in partnership with the local community and traditional owners to identify strategic projects for funding under this measure.
2	States and Territories must demonstrate how identified projects align with relevant State or Territory strategies for the development of Indigenous tourism.
3	States or Territories must match or exceed the Australian Government funding contribution.
4	Projects must generate tourism business development, supply chain opportunities or economic participation outcomes for Aboriginal and Torres Strait Islander Australians and communities.
5	Projects must have a plan for sustainability after Commonwealth funding ceases, either as self-sustainable or through a commitment of ongoing State or Territory funding.
6	Commonwealth funding is intended to complement (not displace) State or Territory funding for Indigenous tourism projects. Funding must not be used for marketing, promotion or other overhead expenditures that would normally be incurred by the funding parties.
7	Projects must demonstrate a sound business case for investment, and evidence of demand (or identified need) for the tourism product, service or experience.
8	Projects must demonstrate value-for-money, and a positive return on the Commonwealth's investment.
